DeWitt Ross & Stevens S.C.

We serve over 145,000 youth at 151 sites in 57 cities across Wisconsin, or more than any organization other than our public school system. In 2018, the State of Wisconsin contribution was less than 2% of our total budget, and we want them to become stronger partners as we continue to invest in our future. With two thirds of our kids living outside of Madison and Milwaukee, we support programs and funding that allows all Wisconsin's Clubs to continue to offer unique programs that promote the positive development of young people.

We focus is on securing resources that result in measurable outcomes for youth in academic achievement, career skill building, workforce development, juvenile crime reduction, prevention of opioid abuse, and positive civic engagement. We support and track legislation and budget matters related to programs and activities for school age youth statewide.

Welch Group Inc, The

Fresh Start Coalition

This is a group of parents who are concerned their children are being unfairly tarnished for life because their children are charged with a crime that is later dismissed -- yet the charge remains on CCAP forever, jeopardizing this young person's future employment and advancement, potential internships and ability to even rent apartments. Conversely, a guilty person who serves their sentence and/or pays a fine, ends up better off by having their case/charge removed from CCAP once their sentence is completed. When a charge is filed but dismissed, the charge remains on CCAP forever for an innocent person who is charged but never found guilty of a crime. Expungement should favor the innocent as much as it does the guilty which is why current law needs to be changed.

Change state law so that all information related to a criminal case of an individual who was under the age of 25 at the time an alleged offense occurred, can have all information related to their case removed from CCAP if charges are dismissed by the court prior to trial.

Sheet Metal and Air Conditioning Contractors' Association of Milwaukee, Inc.

www.pmsmca.com

The Sheet Metal and Air Conditioning Contractors' Association of Milwaukee (SMACCA) represents the needs of contractors engaged in construction, service, and maintenance of sheet metal applications, air conditioning, heating, ventilation, and related systems. SMACCA is part of a network of chapters of a national trade association—the Sheet Metal and Air Conditioning Contractors' National Association (SMACNA)—which represents the leading voices in the sheet metal and air conditioning industries.

SMACCA's main goal is to further the interest of its members, who are subcontractors in the sheet metal and air conditioning industry. The legislative issues it may attempt to influence include workers compensation, prevailing wage, lien rights, retainage on construction projects, as well as more general business interests including taxation and other economic issues.

Railroad transportation.

UP is a freight railroad. We will be attempting to influence legislation and state rules that relate to any regulation of our operating practices or the goods we transport. Since our physical plant (tracks and auxiliary facilities) extend across the state, we have the same concerns that other industry has about property law, environmental impacts and the like, as well as how our property and operation is taxed. We are also concerned about laws that affect our employees and liability law with regard to our operations in the state.

VOX POPULI USA

Professional science based market research consulting expertise using proprietary science.

Let the people know the facts - and the country will be safe...for government of the people, by the people, for the people shall not perish from the earth.

— Abraham Lincoln, 16th President of the United States

OUR MISSION

To give concerned citizens and their elected representatives direct access to the tools they need to test their ideas and assumptions about government - and to create opportunities for fact-based, non-partisan, and representative leadership through a process of informed dialogue.

OUR VISION

To develop a cartography of the mind for all things civic - in topics ranging from the law, to education policy, to jobs and employment, to crime and policing, to environmental regulations, to ethics, to constitutional regulations...

OUR PROCESS

Uses the science of Mind Genomics to fuel, inspire, and analyze citizen-developed research studies on any/all topics of government. We achieve this through a not-for-profit structure. We provide a subscription-based service for the completion of classification studies that utilize the public forum to cover important issues, create answers, and responses at the local, state, national, and global level.

WHY WE'RE DIFFERENT

We have registered as a lobbying organization to be able to freely and frequently communicate with all members of State Government. We do not employ lobbying organizations, nor do we contract them. The data we produce and publish is objective, honest, scientifically-proven, and non-partisan.

We have introduced a way to run a government that represents the needs of the people - in a way that works!

We use easy to understand, robust statistics to reveal the most important elements in the study. We share the results widely in order to generate conversation and provide data where data is needed.

We believe in the power of the people to represent themselves in governance - and to elect public officials who will represent them.

Wisconsin Philanthropy Network currently has 107 members, seventeen (17) of which are community foundations. WPN receives financial support through membership dues, program sponsorships/grants, and program revenue.

WPN is working closely with Wisconsin community foundations for the Endow Wisconsin Initiative. Endow Wisconsin would create an opportunity to hold onto assets in order to help communities grow, change, and be the places where future generations want to live, work, and thrive. This legislation will encourage Wisconsin citizens to invest in their home communities. Those who contribute to the permanent endowments of local community foundations with national certification could receive a tax credit. Providing a tax credit incentive to promote giving to permanent endowments has worked. The Endow Iowa tax credit, in place since 2004, has grown annual giving to permanent endowment in community foundation by more than 200%. In recent years, Maryland, North Dakota, and Montana have established similar tax credits.

WPN will meet with legislators to compose a legislative bill and to obtain support of this bill.

Wisconsin Restaurant Association is a not-for-profit trade association dedicated to supporting the foodservice industry.

WRA membership includes thousands of foodservice businesses representing virtually every size and style of establishment in the state. Restaurateur members include fine dining establishments, mom-and-pop supper clubs, small cafes, fast food outlets, corporate chain restaurants, institutional food service operations, catering businesses and hotel and motel food services, to name a few. In addition to restaurateur and food service operators, WRA has hundreds of Supplier Associate Members that provide goods and services to the restaurant industry.

The Wisconsin Restaurant Association will work to insure that no new taxes on small businesses are created and maintain equal property tax relief for businesses. WRA will work to maintain the September 1 school start law and an increase in the state budget for tourism promotion. WRA is interested in alcohol blood content and immunity from civil liability for furnishing alcohol. WRA will work to limit new mandates on employers in the area of employee benefits or health insurance and finding a viable solution for more small businesses to offer affordable health insurance to their employees. WRA is interested in workplace issues such as minimum wage, workers' compensation, unemployment compensation, and teen labor laws. WRA will work to protect the integrity of the restaurant industry by working for necessary and equitable regulations associated with safe food handling. WRA will work for utility deregulation to effect small businesses positively.
